Watching Margaret create an arrangement is truly exhilarating. If you're not familiar with Margaret's designs, you'll be so glad to discover her. Her work is always recognizable, combining beauty and originality, and always drawing on unusual accents from local growers.

For those of you new to the Garden Club, Margaret Pender has been our good friend and volunteer for many years. We made her an honorary member to show our appreciation of her long partnership with us. *Flashback to January 2021*: Margaret was our monthly meeting speaker, demonstrating winter arrangements via Zoom, from her design table at Victoria Park. She was a smash hit, and it was our best-attended meeting of the whole Pandemic. She was about to move the business to a bigger location, and Margaret invited the Club to tea at her future location, and we volunteered to bring the scones and jam. When? After her big move, and after the Pandemic was over. Two years later — here we are.
