

Floral Design Workshop Series

The Floral Design Committee is presenting a series 4 of design workshops this year. The workshops will be designed to build on skills learned in the previous workshops. We prefer that people commit to the entire series, but we realize that scheduling may prevent attendance at all workshops. We will make use of the textbook Teach Yourself Flower Arranging, 2001, 2003 by Judith Blacklock. In each workshop, participants will be guided to design a specific type of floral arrangement. We will also discuss pertinent principles and elements of design, as defined by the National Garden Club.

Registration required. More information will be sent to registrants before the workshop.

Materials fee TBD for each workshop

Location: St. Ambrose room, St. Thomas More South Campus

Time: 2:30 - 4:30 pm

Contact Club Member: [Carol Rogers](#)
